

ABAL BOHARA

FRONTEND DEVELOPER

letang-5, Morang, Nepal • +977 9746953539 • themailofabal@gmail.com • github: abal-design

SUMMARY

Creative Frontend Developer with a strong foundation in React, Tailwind CSS, and JavaScript. Skilled in building responsive, user-friendly interfaces with clean code and efficient debugging. Passionate about learning new technologies and contributing effectively in team environments.

WORK EXPERIENCE

Instructor / Teaching Intern (UI/UX)

May 2022 – August 2022

IIHT Jhapa, Birtamod (Bhadrapur Road), Nepal

- Delivered instructional sessions on UI/UX design principles, including user-centered design, wireframing, prototyping, and usability fundamentals.
- Guided students in designing intuitive and visually appealing interfaces using modern design practices and tools.
- Mentored learners through hands-on projects, helping them create wireframes, mockups, and interactive prototypes.
- Simplified complex design concepts into practical, easy-to-understand lessons, improving student engagement and learning outcomes.
- Provided constructive feedback on design work, enhancing usability, accessibility, and overall user experience.
- Encouraged best practices in design thinking, consistency, and responsive design for modern web and mobile applications.

EDUCATION

BSc. Hons Computing

2024-Present

Itahari International College

London Metropolitan University

Sundarharincha-04, Morang

Technical Stream (Computer Engineering)

2020-2024

Shree Shanti Bhagawati secondary school

- Graduated: May, 2024

PROJECTS

library Management System (MERN Stack)

studyhub-lms.netlify.app

Stack: MongoDB, Express.js, React, Node.js

- Developed a full-stack Library Management System to efficiently manage books, users, and issue/return records.
- Implemented CRUD operations and user-friendly interfaces for seamless data handling.
- Applied MERN stack concepts to build and integrate frontend and backend functionalities.

Face Recognition Attendance System (SYP Project)

Stack: React, Face Recognition (Concept-based)

- Built a web-based attendance system using face recognition concepts for automated tracking.
- Integrated React for dynamic UI and smooth user interaction.
- Focused on improving accuracy and efficiency of attendance management.

Café Website (MERN Stack)

Stack: MongoDB, Express.js, React, Node.js

- Designed and developed a full-stack café website with a responsive and user-friendly interface.
- Built dynamic frontend using React and integrated backend APIs for data handling.
- Implemented features such as menu display, user interaction, and basic data management.
- Focused on performance optimization and seamless user experience across devices.

SKILLS

Technical Skills

- Web Development: HTML, CSS, JavaScript, React.js
- MERN Stack: MongoDB, Express.js, React, Node.js (basic full-stack development)
- Project Development: UI Design, Frontend Logic, Basic Backend Integration
- Programming & Problem Solving: Debugging, Logical Thinking, Feature Implementation
- Tools & Technologies: Git & GitHub (basic), VS Code

Soft Skills

- Teamwork
- Communication
- Time Management
- Adaptability
